Privacy Rating (PR)

Our glass collections are assigned a privacy rating based on the overall obscurity of the glass types used.

See glass collection pages for ratings.

Please see your store Associate for ordering assistance.

Customer Service: 800-375-8120
Monday–Friday 5:30am to 5pm (PST)
Warranty Tech Line: 888-533-2843

Distinctive character is brought to life through the hand-staining expertise of our craftsmen. Unique stain variations are to be expected—these are treasured elements of the real-wood look.

Pictures depicted in this brochure may have been graphically enhanced for illustration purposes.

Printer and monitor limitations prevent exact color duplication for finished products shown in this brochure.

Cover: 6'8" height, Modern 3-Lite Large Teak Door and Full Lite Sidelites, Cocoa finish, with Cord Glass

FEATURES & BENEFITS

BEAUTY, FUNCTIONALITY, SECURITY, AND ENERGY EFFICIENCY

A

Environmentally friendly CFC-free polyurethane foam core provides insulation

B

16" wood lock block and jamb security plate resists forced entry

C

Unfinished PVC jamb, full non-rot protection

D

Composite adjustable threshold and door sweep limit air and water infiltration

Molded doorlite openings minimize landfill waste, reinforce door structure and doorlite support and protect against moisture

E

High-definition panel embossments provide elegant curb appeal

F

Unique, textured woodgrain detail in every design replicates the true look of a real wood door

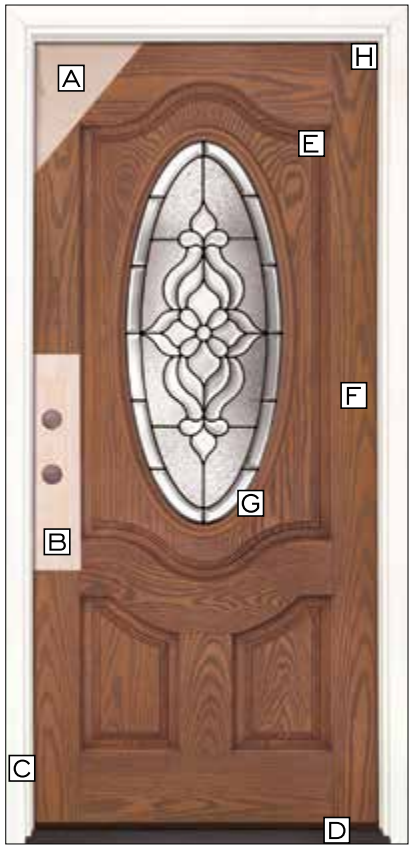

G

High performance lite-frame. Resists discoloration and warping

H

LVL stiles with composite stiles/rails

Oak Woodgrain—Lakewood® Patina 3/4 Oval Door in Medium finish

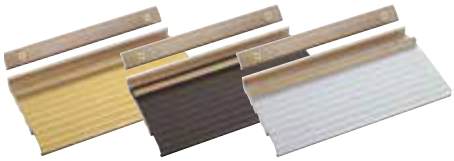

ENHANCED APPEARANCE

Matching came, sill, and hinge* finish

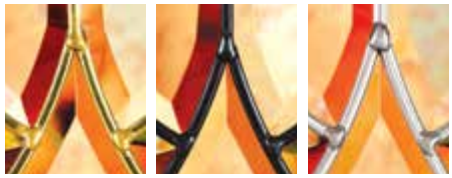

Brass Patina Zinc

Ball bearing hinges reduce door sag and hinge wear

Brass Patina Zinc

Composite anodized sill resists deterioration

Brass Patina Zinc

Triple-pane decorative glass provides superior insulation

*Stainless steel ball bearing hinges:
Option on outswing doors
Standard on outswing Impact Collection doors

JAMB OPTIONS

UNFINISHED WHITE WOODGRAIN PVC JAMB SYSTEM (Standard Option)

Standard option on both Woodgrain and Smooth Fiberglass

Unfinished
Ready to paint

Low Maintenance
– Will not rot or absorb moisture
– Insect resistant

Energy Efficient
Less heat transfer vs. common frame materials

Pre-painted
Available as an option with any pre-painted door. Option available for exterior and interior color choice. Jamb color will match door color chosen or choose Painted White.

80" and 96" Nominal Heights
Available Widths:
4–9/16"
5–1/4"
6–9/16"
8–9/16"

PRIMED FINGER-JOINTED WOOD JAMB (Option)

Primed white jambs are ready to paint and require regular maintenance over the life of the door.

Primed White

80" Nominal Height
Available Widths:
4–9/16"
5–1/4"
6–9/16"
8–9/16"
12" *

96" Nominal Height
Available Widths:
4–9/16"
5–1/4"
6–9/16"

Wood jamb comes standard with the Feather River Sill Key™ System. Sill Key™ doesn't allow jamb bottom to sit on sub floor or sill where it is susceptible to water damage.

* Not available with Sill Key™. Single and double doors only.

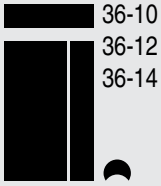

Preston® Zinc 3/4 Lite Door with 3/4 Lite Sidelites and Rectangular Transom | Chocolate Mahogany Style

TRANSOMS

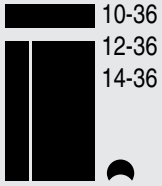

Matching PVC transom frames are available in the configurations below. Directly attach transoms to the door unit. Or, install transoms in a separate rough opening. Feather River ships unattached transoms with door unit. Non-impact only, no HVHZ or WBDR rating available.

PRE-COLORED

WOODGRAIN PVC JAMB SYSTEM
(Upgrade Option)

Available option on Woodgrain Fiberglass. PVC pre-colored jamb system complements our hand stained door's overall door finish, enhancing its beautiful aesthetics. The jamb system is made of PVC which prevents rot and does not peel, fade, or warp. It is easy to maintain as it doesn't require refinishing or UV protection over time. The PVC pre-colored jamb system is a great component to the Feather River door system in achieving its maximum performance.

Note: Designed to complement the overall door finish; color will not match hand stained finishes perfectly.
Note: Not available for transoms.

TEAK PRE-COLORED

Widths: 4–9/16", 5–1/4" and 6–9/16"

PRE-COLORED WHITE PVC JAMB SYSTEM

Widths: 4–9/16", 5–1/4" and 6–9/16"
on both Woodgrain and Smooth Fiberglass

OAK PRE-COLORED

Widths: 4–9/16", 5–1/4" and 6–9/16"

MAHOGANY PRE-COLORED

Widths: 4–9/16", 5–1/4" and 6–9/16"

HAND STAINED

WOODGRAIN PVC JAMB SYSTEM
(Upgrade Option)

This is a hand stained woodgrain PVC jamb option that offers full non-rot protection to best complement our hand stained door finishes. The hand stain method brings out the elegant woodgrain detail and truly enhances the overall beauty of the entire door system. The stain is protected with a UV polyurethane top coat and will require periodic maintenance similar to the door system.

WOODGRAIN TEAK FINISH

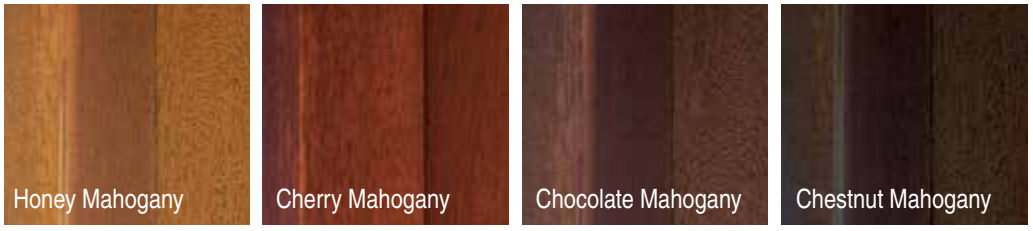

Widths: 4–9/16", 5–1/4" and 6–9/16"

WOODGRAIN OAK FINISHES

Widths: 4–9/16", 5–1/4" and 6–9/16"

WOODGRAIN MAHOGANY FINISHES

Widths: 4–9/16", 5–1/4" and 6–9/16"

NOTE: Double door setups for all pre-stained Woodgrain Doors – Astragal will not be stained but will be "Painted" to complement the stain finish.
Note: A close up of the door system—jamb on the left and door panel on the right—shown in the images above.

ENERGY EFFICIENCY & RATINGS

FUNCTIONALITY

All Feather River Fiberglass Doors are energy efficient and designed to stand up to all seasons, so your home stays warm during the winter months and cool during the summer. Imagine the savings from a fiberglass door which is up to five times more energy efficient than a traditional wood door.

Many of our doors are ENERGY STAR certified. The chart beginning below and continuing on page 9 shows a listing of the U-Factor and SHGC (Solar Heat Gain Coefficient) for all of our Exterior Door Products. Certified units must hit the U-Factor, Solar Heat Gain Coefficient in their climate zone, and air leakage listed in the chart to the right. Visit energystar.gov for your area's climate zone detail.

ASK ABOUT ENERGY STAR

Feather River offers ENERGY STAR certified door models in all 50 states.

Version 7.0 Effective: 10/23/2023

Glazing Level	Climate Zone	U-Factor[1]	SHGC[2]
Opaque	All Zones	≤ 0.17	No Rating
≤ ½-Lite	All Zones	≤ 0.23	≤ 0.23
> ½-Lite	Northern	≤ 0.26	≤ 0.40
	North-Central		
	South-Central	≤ 0.28	≤ 0.23
	Southern		

Air Leakage for Swinging Doors ≤ 0.5 cfm/ft²
[1] Btu/h·ft²·°F
[2] Solar Heat Gain Coefficient

U-Factor: The heat transfer per time per area and per degree of temperature difference. The U-factor multiplied by the interior–exterior temperature difference and by the projected fenestration product area yields the total heat transfer through the fenestration product due to conduction, convection, and long wave infrared radiation. Expressed here in units of Btu/h·ft²·°F.

Solar Heat Gain Coefficient (SHGC): The ratio of the solar heat gain entering the space through the fenestration product to the incident solar radiation. Expressed as a value between 0 and 1.

Air Leakage (AL): Measures the rate at which air passes through joints in the window. AL is measured in cubic feet of air passing through one square foot of window area per minute. The lower the AL value, the less air leakage. Most industry standards and building codes require an AL of 0.3 cf·m/ft².

ENERGY RATINGS INFORMATION

In some years the government has offered a federal tax credit for energy-efficient products that meet or exceed ENERGY STAR performance levels for doors. Please visit irs.gov and energystar.gov for additional information regarding tax credit availability or visit featherriverdoors.com for additional information regarding energy efficiency. **PVC jamb ratings shown in chart.**

NFRC Size Designation	Feather River Door Description
1/4 Lite ≤ 410 sq in	Fanlite, Craftsman, Craftsman Rectangle, Craftsman Arch, Center Arch, 3/4 Oval (Smooth, Smooth Impact—30"), Metro (3-4-5-6 Lite Straight, 3-Lite Zag, 3-Lite Mix, 1-3-4 Lite Square/Diamond, 1-Lite Left/Middle/Right, 3-Lite Narrow), Teak (3-Lite Small, 3-Lite Large)
1/2 Lite ≤ 900 sq in	Half Lite, 3/4 Oval (Mahogany, Oak, Smooth Impact—36"), Center Arch (8/0), Cottage Craftsman Arch, Full Oval, Metro (3-Lite Craftsman, 4-5-6 Lite Narrow, 2-Lite Twin), Teak (Lighthouse, 2-Lite, 1-Lite, 4-Lite)

Full Lite > 1100 sq in	3/4 Lite (8/0), Full Lite, Full Lite RT
Opaque/No Glass	All Panel Doors

NFRC Size Designation	Feather River Sidelite Description
1/4 Lite ≤ 65 sq in	N/A
1/2 Lite ≤ 281 sq in	Craftsman, Half Lite, Center Arch (Oak), Metro (4-5-6 Lite)
3/4 Lite ≤ 391 sq in	Center Arch (Mahogany), 3/4 Lite (Oak, Smooth, Mahogany), Full Lite (Oak, Smooth, Mahogany—12"/10"), Full Lite (Smooth Impact—10")
Full Lite > 391 sq in	Full Lite (Mahogany—14"), Full Lite (Teak—14"/12"), Full Lite (Smooth Impact—14"/12")
Opaque/No Glass	N/A

ENERGY RATINGS CHART

Will not qualify under ENERGY STAR 7.0 guidelines.

Will not qualify in the Northern and North-Central climate zones under ENERGY STAR 7.0 guidelines.
Will not qualify in the South-Central and Southern climate zones under ENERGY STAR 7.0 guidelines.

Note: Transoms do not qualify for the tax credit. Any tax credit, if available, would be based on "qualified" Door with Sidelites or Double Door configuration.
Note: Ratings shown here are with PVC Jamb. Wood jamb ratings can be found in the Performance Data section of our Resources on featherriverdoors.com.

ROUGH OPENING INFORMATION

ROUGH OPENING INFORMATION

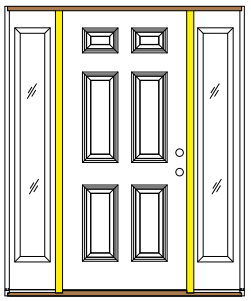

Notice: Listed at right are some of the most common door configurations, with rough opening dimensions. If you find that your rough opening does not match the standard sizes, we have options that help to accommodate almost any rough opening size. Ask your The Home Depot Associate for more information regarding cut-down and sidelite spreader options.

Doors with Sidelite(s): Rough Opening sizes shown at right are for a standard continuous head and sill setup with primed wood jamb or unfinished PVC jamb. Note: Some PVC Jamb options may add 1/2" per sidelite to the width shown in the chart at right (this will be a continuous head and sill unit, but at a box construction size).

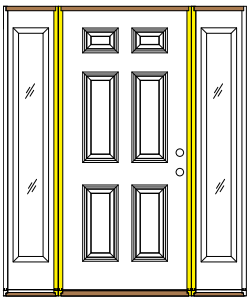

Box Construction Size Option: We also offer our doors in box construction size depending on jamb option. This size adds 1/2" to the measurements shown per sidelite.

Box Construction with Spread Mull Option: Allows for a 1/2" to 3" spread between door and sidelite. Built as standard box construction and only available on certain jamb options. Double Door with Two Sidelites: Only available in Box Construction as standard and no Spread Mullion.

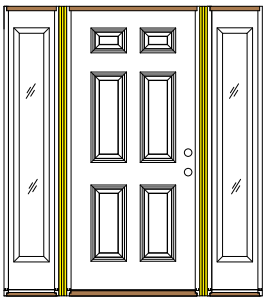

PRE-HUNG SETUP CONSTRUCTION EXAMPLES

Continuous head and sill

Box construction

Box construction with spread mullion

Outswing Units: Come standard with a Bumper-Style Sill, which requires that you subtract 1–1/8" from the Prehung Unit and Rough Opening height. Also add 1/2" to Brickmold Sizing for width.

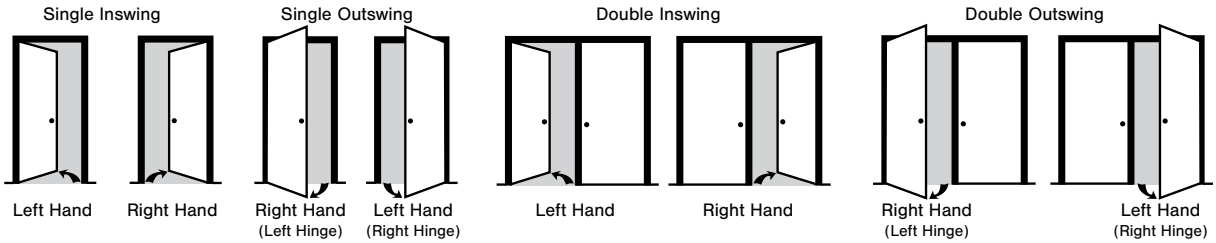

Wheelchair Accessible: Subtract 7/8" from any of the heights shown.

Threshold: Inswing Units – Threshold height is 1–3/8", which allows for approximately 1" opening clearance. If a spacer is needed under sill to allow for proper opening clearance, please adjust rough opening accordingly.

Transom: To calculate heights for combined doors and transoms, add the transom height to the Chart height.

DOOR SWING AND HANDING

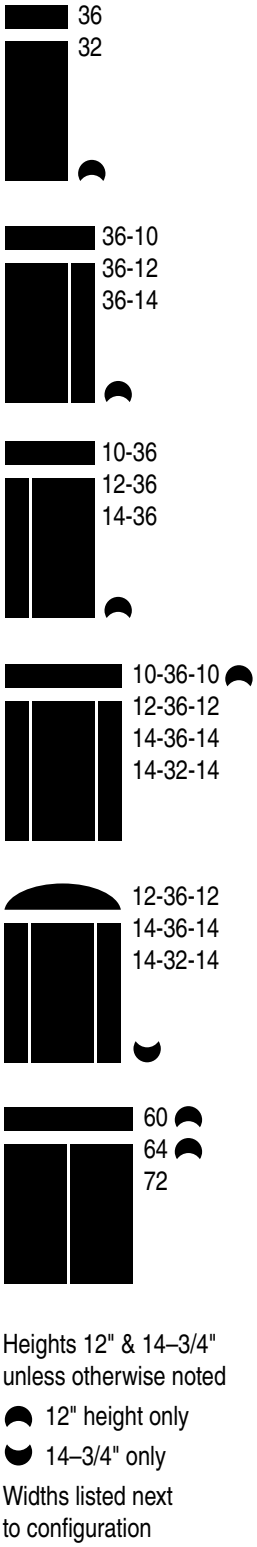

Viewed From The Outside

ROUGH OPENING CHART

DESIGNED TO MEET IMPACT REQUIREMENTS FOR "HVHZ" AREAS IN FLORIDA

Rough openings for HVHZ (Impact) are smaller than Rough Opening Chart sizes.
Maximum space between Actual Unit Size and Rough Opening is 1/2" in width and 1/4" in height.

LIMITED LIFETIME WARRANTY

Feather River Doors fiberglass entry and patio door systems by Trinity Glass International, Inc. (hereinafter Trinity) are warranted to be free from defects in material and workmanship that would render the door unfit for its intended use under normal conditions, subject to the conditions and restrictions contained herein. This warranty extends only to the original purchaser/first end user (hereinafter Customer) from the date of purchase and extending to the following periods:

Limited Lifetime Warranty on all door slabs and sidelite slabs
Limited Lifetime Warranty on PVC jambs, brickmoulds and mullions
Limited Lifetime Warranty on doorlite (glass) frames
10 Years Limited Warranty on insulated glass against seal failure
5 Years Limited Warranty on factory finish (paint and stain)
3 Years Limited Warranty on SWITCH® PDLC switchable glass panel, circuit box, charging stand and all electrical components
2 Years Limited Warranty on SWITCH® battery
2 Years Limited Warranty on all wood products (i.e. jambs, brickmoulds, mullion) and all other components not specified in this warranty

The following are exceptions that may void the warranty or are not otherwise considered to be defects in material or workmanship:

1. Damage caused by failure to comply with the installation, finishing and maintenance instructions and recommendations by Trinity.
2. Damage caused by improper storage and handling, abuse, abnormal and unreasonable use by the Customer or other parties beyond the control of Trinity, to include but not limited to damages caused during shipping, handling, installation, replacement of genuine Trinity parts or components, unauthorized repairs, or any act(s) performed to the products not in compliance with Trinity's instructions and recommendations.
3. Damage from harsh natural conditions, including but not limited to substantial exposure to sun, salt spray, lightning, windstorms, earthquakes, acts of God, and other severe environmental conditions including but not limited to harsh chemicals or solvents, such as acidic brick washes or stucco leach.
4. Broken or shattered glass, normal wear and tear of components, improper maintenance, improper cleaning, improper caulking, and damage caused by pets or wild animals.
5. Bowing not exceeding 1⁄4 inch in the plane of the door. This shall be determined by placing a straight edge on the bowed surface of the door and measuring the point of maximum distance between the bottom of the straight edge and the surface of the door, accounting for panels and glazing recesses.
6. For unfinished products, failure to properly finish all door/sidelite/transom surfaces and/or jamb materials within 2 weeks of installation or 6 months from the date of purchase, whichever is sooner.
7. Natural variations in color or texture of any wood grain surface shall not be considered a defect. When exposed to direct sunlight over long periods of time, discoloration may occur, but this will be within the accepted tolerances contained within 5 Delta E units, calculated in accordance with ASTM E 308, ASTM E 805 and ASTM D 2244, effective on the date the product is manufactured. Non-uniform fading and/or color changes are natural occurrences if the exterior surfaces of the products are not equally exposed to the sun and other environmental conditions.
8. Natural conditions created during the manufacturing process used in making decorative glass panels such as bubbles, streaks and swirls in decorative glass shall not be considered a defect. Irregularity in glass that is not visible from farther than six feet shall not be considered defects.
9. Any damage caused by improper installation of a storm door or the installation of a non-ventilating, full glass storm door shall void this warranty.
10. This warranty applies only to doors installed in owner occupied residential dwellings within the U.S., during the Customer's ownership, and is non-transferable.
11. Repaired or replaced components are warranted on the same terms and only for the remainder of the original warranty period. Color and grain match are not guaranteed. Trinity reserves the right to discontinue or change products or components. If a product or component is not available, Trinity may select and provide a like product or component of equal quality and price.

Warranty Claim Procedures:
In the event of a defect covered under this warranty, Customer shall comply with the following claim procedures:

1. Written warranty claim shall be presented to Trinity.
2. Customer's written claim must include the following information:
    - Nature or adequate description of defect(s).
    - Identification of product including size, design, type, and product number (if available).
    - Date of purchase.
    - Proof of purchase.
3. Upon Trinity's request, Customer must permit Trinity (or its representative) to inspect the claimed defective door system and provide photographs of the defective product. Trinity shall have 30 days from receipt of Customer's written claim to exercise this option to inspect.

Upon receipt of a valid claim, Trinity shall have the option to either repair the product or provide a replacement product of like kind and design. Further, in lieu of repair or replacement, Trinity reserves the right to refund the Customer's purchase price (not replacement price). THIS SHALL BE THE CUSTOMER'S SOLE AND EXCLUSIVE REMEDY, AND IN NO EVENT SHALL TRINITY BE RESPONSIBLE FOR LABOR, SHIPPING, FINISHING EXPENSES, REMOVAL OF PRODUCT, INSTALLATION OF REPLACEMENT PRODUCT, OR OTHER INCIDENTAL AND/OR CONSEQUENTIAL CHARGES, COSTS, EXPENSES OR CLAIMS INCURRED BY CUSTOMER.

If Trinity elects to refund the purchase price, this warranty will be prorated from the date of purchase in the following manner: 0-5 years, 100% of the original purchase price; 6-10 years, prorated at 75% of original purchase price; and 11 years and up, 50% of original purchase price.

Trinity makes no other warranty, including a warranty of merchantability or fitness for a particular purpose, with respect to the product or replacement except to the extent provided herein. Invalidation of any one or more of the provisions of this limited warranty shall in no way affect any of the provisions in this limited warranty which remain in full force and effect. Any and all legal actions for any and every breach of this warranty shall be instituted and maintained in any court of competent jurisdiction in the County of King, State of Washington. Trinity reserves the right to modify the terms and conditions of this warranty without prior notice.

Please direct all questions about this warranty to: info@featherriverdoor.com or 888-533-2843.

Trinity Glass International, Inc. | 33615 1st Way South | Federal Way, WA 98003 Revised 9/30/2024

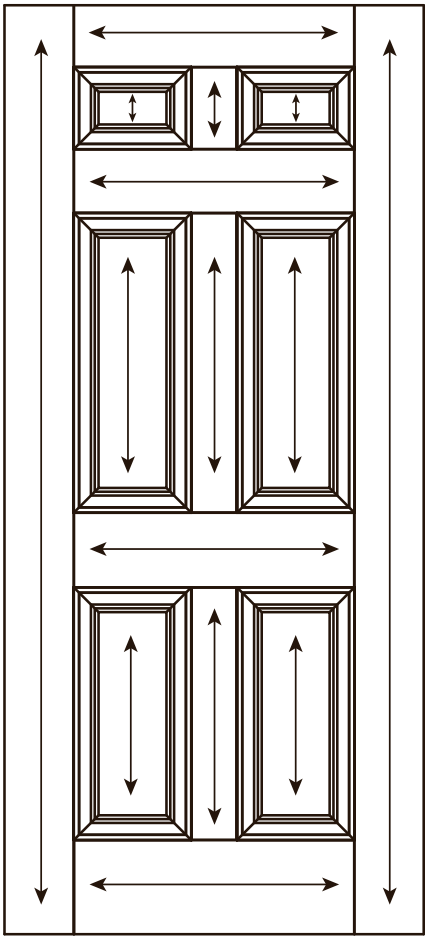

FINISHING INSTRUCTIONS

FEATHER RIVER HAND STAINED DOORS AND JAMBS:
Feather River hand stained doors and jambs already come with a polyurethane UV top coat which protects the door during the 5 year finish warranty. It does not require additional topcoats at time of purchase but you will need to apply additional topcoats after 2-5 years as mentioned in the Care and Maintenance section below.

PAINTED FINISH:
UNFINISHED FIBERGLASS DOORS AND PVC JAMBS
You can use any high quality oil based or latex based exterior paint. Priming the door is not required, but we do recommend a light sanding with 220 grit sandpaper for better paint adhesion. Before applying a paint, wipe the door and doorlite frame with a damp cloth to remove any dirt, oil, or debris. Allow the surface to fully dry before painting. For a pleasing look, we recommend painting with strokes in the directions shown. Apply at least two coats of paint, following the paint manufacturer's recommended instructions along with drying time between coats.

PVC UNFINISHED JAMBS: You can use any high quality oil based or latex based exterior paint. Priming the jamb is not required, but before applying a paint, wipe the jamb with a damp cloth to remove any dirt, oil, or debris. Allow the surface to fully dry before painting. Apply at least two coats of paint, following the paint manufacturer's recommended instructions along with drying time between coats. We also recommend following the Feather River installation instructions and properly caulk around the brickmold, jamb, and threshold area.

CARE AND MAINTENANCE
We recommend on any hand stained product that you reapply a UV topcoat over the existing topcoat every 2-5 years to protect your beautiful entryway from harsh weathering. We do not recommend stripping the finish. In locations with severe weather exposure, more frequent maintenance may be required. Caulk as well as repaint your doors as soon as deterioration can be detected.

Introducing

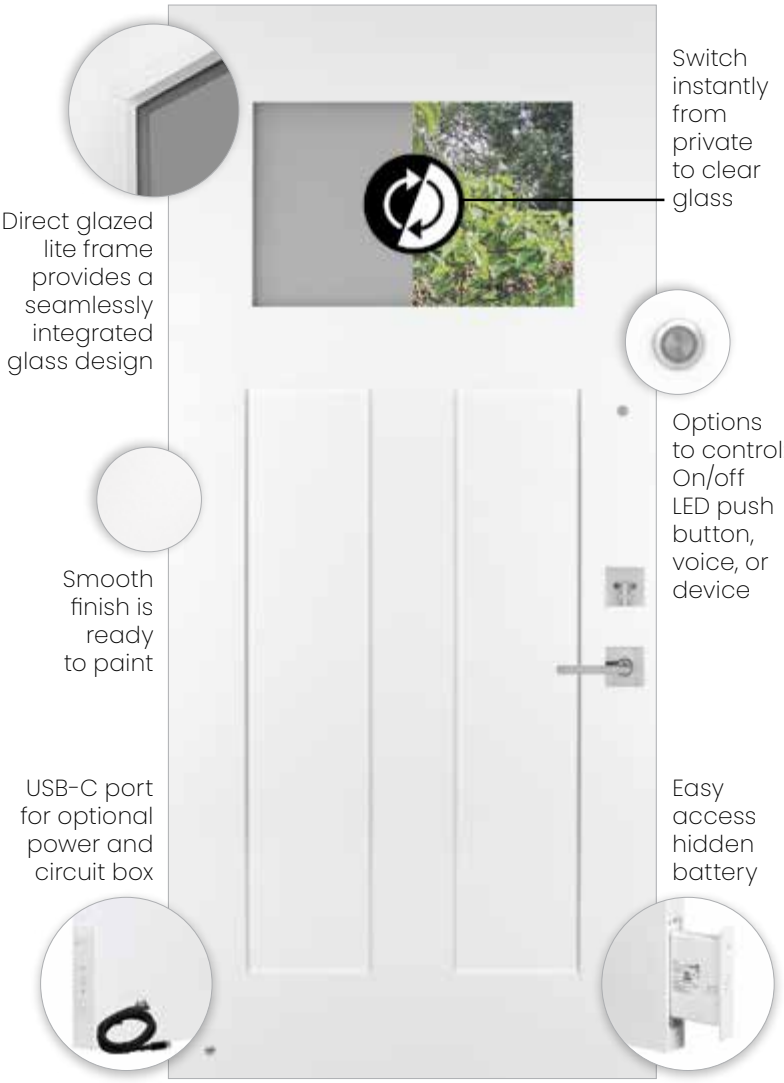

SWITCH®

Smart Glass Technology

SWITCH® Smart Glass Technology is more than a glass panel—it's a fully integrated system. Its direct glazed lite frame offers a sleek, modern look without external framing. It also includes a PVC jamb system that enhances durability and offers superior insulation against the elements. And the door's paintable finish allows homeowners to easily match it with their home's existing color palette, providing both functional and aesthetic flexibility.

- **Durable fiberglass**
- **Energy efficient**
- **PVC non-rot jamb**
- **Reinforced security**
- **Ball bearing hinges**
- **Limited Lifetime Warranty**

Beyond its physical design, SWITCH® connects with your smart home. Compatible with voice systems like Alexa and Google Home, you can control it hands-free or through the Hubspace™ app. You can schedule opacity changes based on time or adjust it remotely, making the door a dynamic part of your home's smart system.

Accessories included:

- Circuit box
- Charging stand
- Batteries (2)
- USB-C cords (2)

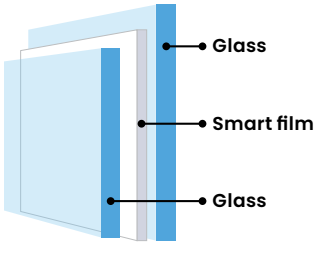

powered by HUBSPACE™ SMART HOME PLATFORM

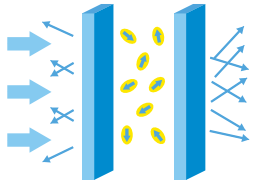

- **Switch glass instantly from any location**
- **Shows battery level and provides low battery warning**
- **Customize automatic schedules and timer settings**

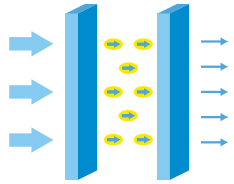

SEE HOW IT WORKS

Electronic glass - How it works Using innovative Polymer Dispersed Liquid Crystal (PDLC) technology, our glass transitions from private to clear in an instant. The PDLC layer is sandwiched between two layers of durable glass, and when an electric current is applied, the liquid crystals align to create transparency. Removing the current scatters the crystals, turning the glass opaque. This feature allows the glass to switch from private to clear with the touch of a button or via voice command.

OFF (no power)
Crystals scattered, deflect light **= private**

ON (with power)
Crystals aligned, light passes through **= clear**

For most up to date Testing and DP Rating information for Feather River product please visit the following:
www.featherriverdoor.com/ Go to Resources/ Exterior Door Performance Data
www.floridabuilding.org/ Go to Product Approval/ Find a Product/ Search Under Trinity Glass International
https://appscenter.tdi.texas.gov/windstorm/p/publicProductEvaluations Search Under Trinity Glass International

DP Rating information listed is based on lowest rating, WBDR is for Inswing. Door and Sidelite(s) is for Continuous Head & Sill.

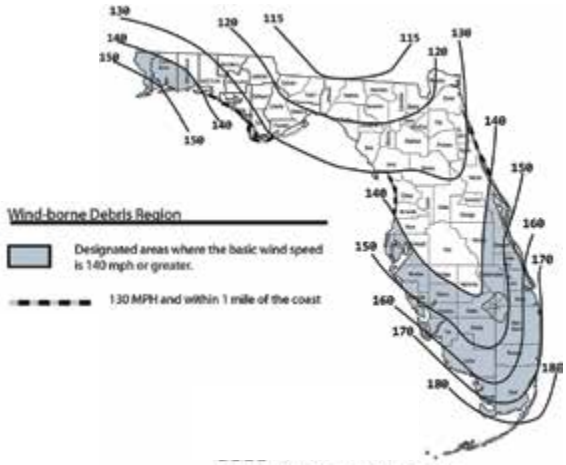

HIGH VELOCITY HURRICANE ZONE (HVHZ)

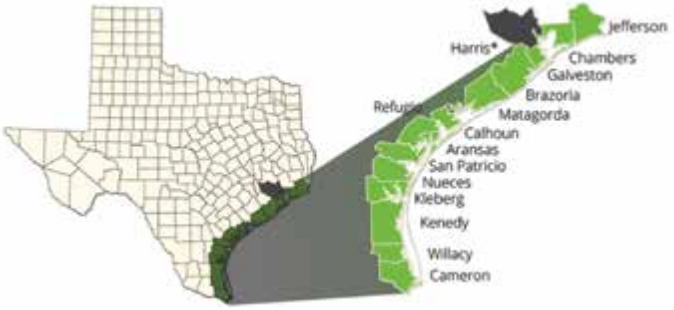

- Impact Rated Door Slab with Impact Rated Laminated Glass
- Dade and Broward Counties (FL)
- Must comply with specific DP Ratings
- Requires Impact Rated Door and Impact Rated Glass
- Outswing only

WIND BORNE DEBRIS AREA (WBDR)

- Regular Non-Impact Door Slab with Impact Rated Laminated Glass
- Areas where wind speeds are 140 mph or 130 mph within 1 mile of coastal area
- Required to meet certain tests
- Inswing and Outswing

Doors will be available in the near future.
Testing is ongoing for this program for FL and TX.

WBDR: This program may have other door finishes and panel door availability as testing progresses since it uses our regular non-impact slabs with impact rated glass/frame designs shown above.
